

Certificate of Conformance

Food Approval Statement

QUINN PETG sheet

QUINN PETG clear sheets non UV can be used for food contact applications.

EUROPE:

QUINN PETG sheets are extruded co polyester –sheets which are produced from monomers and other raw materials, meeting the compositional requirements of the EU-directive 2002/ 72/EC relating to plastic materials and articles which come into contact with foodstuffs.

Chemical analysis, performed as required by EU directive 2002/72/EC, proves that it is possible to use with acid, aqueous, alcoholic and oily food.

(Global and specific migration limits) 82/711 and 85/572 (contact condition and migration liquids),

USA:

QUINN PETG sheets are in conformity with FDA, they comply with the US Food and Drug Administration (FDA) regulation 21.CFR 177.1315

GERMANY:

QUINN PETG sheets comply with the requirements of the BfR recommendation XVII.

(BfR =Bundesinstitut für Risikobewertung= Institute for Risk Assessment)

(Former: BIVV (Bundesinstitut für Verbraucherschutz und Veterinärmedizin).

FOR NOTICE:

A suitable processing of the product is mandatory.

The manufacturer or user has to verify whether the product is suitable for its final application, e.g. whether the final product might affect the taste or smell of food or whether the limitations (e.g. global migration, specific limits and other analytic requirements,) are observed.

TECHNICAL SERVICE QUINN PLASTICS

The information in this certificate is based on our knowledge and experience to date. It does not release the user from the obligation of carrying out his tests and trials, in view of the many factors that may affect processing and application; neither do they imply any legally binding assurance of certain properties or of suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.
